

Open Width Single Jersey Circular Knitting Machine

The cloth-cutting machine is equipped with a roller speed adjustment device that guarantees a uniform and stable knitting tightness to the fabric.

- Top class fabric quality without any center crease over the entire fabric surface
- Less cutting waste when further processing the fabric
- Combines the characteristics of single jersey machines and crease-free for cloth
- Make full use of fabric - reduce cost and increase profits

Main Features:

➤ **Cloth Cutting System**

Following the gear design without unfolding the fabric, it is easy to roll up cloth. Its safety shutdown device unctions when the cloth is not cut completely. The cloth collecting stick can roll up cloth automatically, so as to process cloth in diverse sizes, even those which are too small to strain. The cloth-cutting machine is equipped with a roller speed adjustment device that guarantees a uniform and stable knitting tightness to the fabric.

➤ **High fabric output**

High fabric output equipped with large diameter cylinder and high-speed motor; automatic cutting system to ensure unnecessary fabric loss.
