

Rib Circular Knitting Machine

Widely used in high-volume production of soft and comfortable underwear fabric

- Most Popular model, capable of knitting various kinds of double jersey fabric
- Each model can be fitted with an optional Lycra feeder
- Interchangeable design to interlock knitting machine
- **Application Area:** Leisurewear
- **Applicable Yarn Materials:** cotton, synthetic fiber, silk, artificial wool, mesh or elastic cloth.

Main Features:

Widely used in high-volume production of soft and comfortable underwear fabric. Sintelli's main gear systems are all embedded in an oil bath to lubricate and prolong the lifespan of the gear system. All gears are fluted simultaneously to minimize backlash between dial and cylinder needles. Users can handle different fabric changes by choosing Sintelli's double series.

➤ **Interchangeable**

Flexibility in the machine application, Sintelli's double series allows users to change the fabric from jersey to rib to interlock. This precision conversion system allows you to meet the ever-changing demand of the market, as and when required.

Technical Data

Model	Machine Gauges	No. of Feeders	Speed
DJR	10-22G	52F-72F	15-30 RPM
